

Alex Deva

Tg. Mures, Romania

www.zapoint.com/zap/alxx

Personal Summary

Over the past couple of years, I've helped turn Zapoint from a small and simplistic site into a complex and powerful web-based tool. And this is still only the beginning!

Top 10 Skills

programming, telecom, producer, radio, freelance, Designer, audio, web design, desktop publishing, Visual Basic

Experience

Working	18 years, 2 months
Education	3 years, 10 months

Professional

Head of Development

Zapoint, Inc., Development (Cambridge, United States)
August 2008 - Now (Full time)

Leading the backend development of the Zapoint application, designing the architectural model of Zapoint code, managing the testing team.test

Associate Director

Indigenous Development, (Tirgu Mures, Romania)

Manage the company's software outsourcing business.

Managing Director

Twodecode Technologies, (Bucharest, Romania)
May 2006 - March 2007 (Full time)

Managed the Romanian development team.

Senior IT Consultant

Modulo Consulting, (Bucharest, Romania)
December 2005 - April 2006 (Full time)

I was part of a team of IT consultants who lent our software development and project management expertise to various (local and international) IT/telecom companies.

Project Manager

Vodafone Romania, Marketing - Consumer Market (Bucharest, Romania)
January 2005 - November 2005 (Full time)

Managed a number of 3G-related telecom/web projects (like the MobileTV)

Services Developer

Vodafone Romania, Technology and Services Development (Bucharest, Romania)
February 2002 - December 2004 (Full time)

I've been involved (as project manager) in a number of corporate projects; researched the market for new services and technologies, technically managed their integration, or took active part in their development.

I've developed expertise with telecom-grade application servers, in the technical fields of GSM communications and architecture, and in enterprise application building, project management, customer

service, vendor relations,
marketing.

I've developed some mobile GSM-based applications, created various graphic art designs and web-based interfaces, as well as a number of Intranet web-based applications for various internal purposes.

I acquired very good presentation skills as the main "salesperson" of the Services Delivery platform outside the department, at a number of CERF and SIAB events a.s.o.

I've also worked in video editing, scripting and producing.

Teacher

Liceul Economic, (Blaj, Romania)
September 1999 - June 2001 (Full time)

I've taught Computer Science to highschool students; also held classes at a CS University College.

Systems Architect

TISP, ISP (Blaj, Romania)
February 1999 - January 2002 (Full time)

Created from scratch, using free / open-source technologies, and managed a local ISP.

Programmer Analyst

Babes Bolyai University, Communication Center (Cluj Napoca, Romania)
October 1996 - December 1999 (Full time)

As part of the team who managed Romania's second largest ISP (at the time), I was dial-up chief, systems administrators, network designer and engineer (designed, implemented, interconnected the internal networks of two faculties), customer support representative and software developer.

Software Developer

freelance, (Blaj, Romania)
January 1995 - December 2001 (Full time)

Freelance developer for various clients in Romania and the US.

Designer

freelance, (Blaj, Romania)
January 1994 - December 2001 (Full time)

Worked in DTP for various publishing houses / private clients, delivering books, magazines, prints;

Worked as web designer;

Designed audio/visual advertising materials (also for radio).

Educational

Bacalaureat

Colegiul I.M.Klein, (Blaj, Romania)
September 1991 - June 1995

Won 1st and 2nd places at local Programming Olympics;

Won 6th place at the National Programming Olympics;
