

Enable Transparency. Fuel Engagement. Drive Results.

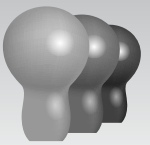

Zapoint is forever changing the way companies develop their talent. Zapoint SkillsMapper is a powerful employee-driven career management platform. Combining the power of social networking, collaboration and career management technology into a single web platform, SkillsMapper helps companies engage employees more effectively with learning and development while gaining deeper visibility into their future leaders.

SkillsMapper starts with robust talent profiles that employees use to highlight their true value, share invaluable knowledge, and collaborate through connections, which in turn provides the business with a valuable repository of employee information on-demand. With SkillsMapper, companies can enable the benefits of organizational transparency, improve employee engagement, enable succession planning and drive better business results.

Key Features

Talent Profile - The core of the SkillsMapper solution, forming the foundation for conversations, knowledge-sharing and career planning.

Social Networking - Helps companies tap into their human capital with social networking for the entire organization and sub-groups.

Conversations - Encourages collaboration and knowledge sharing.

Career Paths - Empowers employees with tools to take ownership of their career plans.
